1. When sail - ing on a storm - y sea, En - com - passed by the night,
2. And when, up - on the dis - tant shore, They see the bea - con's flame,
3. Thus burns with - in the hu - man heart, A glo - rious bea - con - light,
4. Oh, wouldst thou see the bea - con - light Whose rays will nev - er wane,

How anx - ious - ly the sail - ors watch For but one gleam of light.
Oh! then a hun - dred voic - es rise In grate - ful, glad ac - claim.
Which doth the sea of life il - lume In tem - pest, gloom and night.
Then ev - er keep with - in thy breast A con - science free from stain!
