In The March Of Life

MARCH OF LIFE 10s & 8s.

1. In the march of life, thru its toil and strife, Like the tried and true before us,
   Let us onward go, for the Lord, we know, Spreads the banner of his mercy o'er us.

2. In the march of life, thru its toil and strife, There are foes that oft assail us,
   But we need not fear, for the Lord is near, And his mighty arm will never fail us.

3. Let our faith be strong as we march along, Let us go without repining,
   Tho' the clouds may frown, yet beyond their gloom We can see the golden sunlight shining.

D.C.- In the march of life, thru its toil and strife, Like the tried and true before us,

Let us onward go, for the Lord, we know, Spreads the banner of his mercy o'er us.

If we trust in Him we shall fear no ill, From His love no pow'r can sever;
   When our race is run, and our work well done, When we meet beyond the river,

D.C. al Fine

With His armor bright we'll defend the right And abide in Him forever.
   We can march unharmed, we can march unmoved, With the keenest arrows flying.
