There's Victory In My Soul!

1. The burden of my fear and sin, On Christ by faith I roll,
   And now I have His peace within, And victory in my soul.

2. I know there is a test for me, A battle to be won.
   But God bestows the victory Ere yet it is begun.

3. E'en death itself I do not fear, Since Christ hath born its sting.
   While faith regards His coming near His crown with Him to bring.

4. On battlefields of long ago When Israel drew the sword,
   'Twas not her strength o'ercame the foe, But trusting in the Lord.

Chorus

There's victory in my soul, Victory in my soul!
I grasp the promises by faith— There's victory in my soul!
