O Holy Night
CHRISTMAS

1. Come, let us all in joyful strain Sing of that wondrous night again,
When lowly lay and gently smiled The blessed Savior, meek and mild.
O holy night, O peaceful night, On which heav’n shone with splendid light;

2. Now raise the song in glad accord, To praise the birth-night of our Lord,
When trembling shepherds saw the sight Of heav’n-ly bright-ness in the night.
O holy word, O gracious word, The wait-ing shep-herds won-d’ring heard.

3. Come, sing the song with joyful might, And marvel at that glorious night,
When wise men, guided by a star, To worship Him came from afar.
