Drifting Away From God

1. Drifting away from Christ in thy youth, Drifting away from mercy and truth, Drifting to sin in tenderest youth, Drifting from heav'n away in your pride, Drifting away from God.

2. Drifting away from mother and home, Drifting where peace and rest can not come, Drifting where death and sorrow to roam, Drifting from heav'n away in your pride, Drifting away from God.

3. Drifting away on sin's treacherous tide, Drifting where death and darkness abide, Drifting from heav'n away in your pride, Drifting from heav'n away in your pride, Drifting away from God.

4. Drifting away from hope's blessed shore, Drifting ed and stranded, wreck'd, evermore, Drifting away from God. Broth-er, the Savi-our has called you before; See! you are nearing eternity's shore!

5. Why will you drift on billows of shame, Spurning His grace again? Soon you'll be lost in sin to remain, Soon you may perish, be lost evermore, Jesus now calls for you.

Chorus

Drifting away from God.
Drifting away from God.
Drifting away from God.
Brother, the Savior has called you before; See! you are nearing eternity's shore!

Drifting away from God.
Drifting away from God.
Drifting away from God.
